After Negroes.

No. 12 from the south 6:15 p. m.

J. J. Sikes is in the city from Louisiana for the purpose of securing three hundred negro families for plantations in his state. Mr. Sikes says he wants only good, industrious negroes, who know something about farming, and says there is a good demand for them at good wages on Louisiana plantations.

The negro is going to be up against a hard proposition here next year, on account of the white merchants and planters refusing to supply them, and no doubt those foreseeing this will take advantage of such an opportunity.

Ready to Drill.

The machinery for drilling the test well at the oil field east of town is all in position, and ready for drilling, and actual drilling will begin Monday.

Great numbers of visitors go out to the field every day, and interest is increasing daily. Investors from the outside are buying daily. A deal was parties today, whereby they came in possession of lands close to the scene of operation.
